Record 2 — Cold Storage Daily Racking, FEFO & Facility Environmental Log

Form ID	**FORM-WH-RACK-03**
Operational Unit	Cold Storage Facility — Zone B Chilled Warehouse
Target Racking Bay	Multi-Tier Gravity-Flow Racking Bay R-04-12
Target Lot Number	**Jap682/1234**
ERP Inbound Pallet ID	PL-20260501-88412
Inspection Date	05 June 2026
Shift	Shift 1 — 06:00–14:00 HKT

6M INPUT & IN-PROCESS CONTROL CHECKLIST — FLOOR OPERATIONS

Section 1 — Pre-Execution 6M Input Verification

Gate entry checks

6M Lens	Item Checked	Engineering Requirement	Observed Value / Verification	Result
Man	Operator Cold-Stress & Competency	Valid Cold-Chain Operator Certificate; mandatory thermal PPE kit verified.	Operator ID: HK-WH-8841 — C. T. Wan. PPE worn and compliant.	**PASS**
Machine	Reach Truck / Pallet Stacker	Daily pre-use check passed; hydraulics intact; no battery acid leak.	Forklift Unit #04; battery 94%; pre-start inspection log signed.	**PASS**
Material	Pallet Integrity & Master Cartons	15 kg cartons intact and dry; no crushing; FSC-recyclable labels clear.	Pallet wrapped; shrink-film intact; zero carton denting or brine wetness.	**PASS**
Method	WMS-Directed FEFO Rules	System-enforced FEFO pick order; no manual bin bypassing.	Handheld RF terminal loaded Wave #W628; lot matches earliest expiry.	**PASS**
Measurement	Calibrated Metrology Tools	Optical salinity refractometer and NIST IR core thermometer verified.	IR Gun IR-09 — calibration expiry 18 November 2026; Refractometer REF-03 zeroed.	**PASS**
Milieu	Chamber Hygiene & Safety Envelope	Floor dry; condensation cleared; no brine puddles; lighting > 500 lux.	Zone B floor clean; air curtain operational; emergency exits clear.	**PASS**

Section 2 — In-Process FEFO Inventory & Packaging Integrity

Verification Step	Target Standard / Rule	Actual Physical Finding	Result
1. Physical FEFO Slotting Alignment	Gravity-flow rack: oldest batch positioned forward at the pick-face.	**Front:** Lot Jap682/1234 — expiry 20 June 2026. **Behind:** Lot Jap701/5521 — expiry 15 July 2026. Position verified.	**PASS**
2. WMS Bin Barcode Match	Barcode scan of rack slot R-04-12 must match the WMS pick task.	Scanned slot barcode LOC-ZB-R04-12 matches the active MES Job Pick Wave.	**PASS**
3. Master Outer Packaging Condition	Gross carton weight ≤ 18.0 kg; ergonomic two-man handles intact.	Weight verified at 16.45 kg; ergonomic hand-cutouts intact; carton dry.	**PASS**
4. Primary Vacuum Pouch Containment	Zero air bubbles; hermetic vacuum intact; zero brine weeping.	15 pouches inspected: 100% vacuum seals intact; zero pouch punctures.	**PASS**

Verification Step	Target Standard / Rule	Actual Physical Finding	Result
5. Saline Media Density	Natural saturated brine solution ≥ 15° Baumé, verified by refractometer.	Sample pouch refractometer reading: **16.5° Baumé** — meets ≥ 15° limit.	**PASS**
6. Non-Destructive Surface Temperature	Chilled target: 0.0°C to +4.0°C, using handheld IR probe.	Multi-point carton surface readings: **+1.8°C, +1.9°C and +1.7°C**.	**PASS**

OPERATOR & SHIFT SUPERVISOR SIGN-OFF

"I hereby certify that the physical slotting, environmental conditions, and packaging integrity of Lot Jap682/1234 located at Rack R-04-12 have been fully verified against OPM-WH-CCIM01 criteria. All checks pass."

Role	Name / Staff ID	Recorded Signature	Time HKT
Lead Warehouse Operator	Wan Chun Tung Staff ID: 8841	[Signed: C. T. Wan]	07:20
Shift Supervisor	Chan Kwok Wah Staff ID: 4102	[Signed: K. W. Chan]	07:25
